

J REGIONAL DEVELOPMENT

J1 - Mandatory Contributions

Taxes paid, share in local, regional and national tax income, including other mandatory payments/obligations, expenditures caused by mining operations (administrative procedures, monitoring, enforcement, etc.).

Not accessible to EO-techniques

J2 - Voluntary contributions to the community

Interest, on a local level, for the common good.

Not accessible to EO-techniques

J3 - Infrastructure development

Housing, industrial premises, roads/railroads, sealed areas. Akin to A2 and F2, but assessing qualitative as well as quantitative changes. The number of houses and industrial premises and their state would indicate economic developments.

Not accessible to EO-techniques

J4 - Existence and effectiveness of local/regional institutions for information management.

Collecting and integrating monitoring information, comparing to benchmarks (best practice), making this information publicly accessible.

Not accessible to EO-techniques

J5 - Capabilities of Local and Regional Authorities

For monitoring and compliance enforcement, including the capability to make use of EO-information, in particular remote sensing data.

Not accessible to EO-techniques
