

## **EO-MINERS**

**Earth Observation for Monitoring and Observing Environmental and Societal Impacts of Mineral Resources Exploration and Exploitation**

## **Website**

Horst Hejny, MIRO

## Website, objectives

**EO-MINERS website can be found at:**

**<http://www.eo-miners.eu>**

- Accommodate the requirements of all WPs
- Disseminate results
- Provide a directory of information to all stakeholders
- All published (multimedia) material available for download
- Real-time monitoring of test sites ??

## Website, email system

- Domain registration enables use of email addresses in the form of xyz@eo-miners.eu
- Suggestion:
  - Create general email address, e.g.:  
enquiries@eo-miners.eu      or  
information@eo-miners.eu
  - Directly addressed via POP or Webmail      or  
forwarded to another email address

## Website, graphical design

- Should and will be consistent with EO-MINERS dissemination and promotion material
- MIRO has in-house capability of web designer and graphic designer
- Suggestion:
  - Create a small website working group consisting of WP5 partners to finalise design and basic structure, mandate of General Assembly

## Website, structure (1)

- Elements for construction will be based on particular requirement of the project concentrating on dissemination and communication
- Use of open-source proprietary elements and third party plug-in tailored for use to the website design
- Website design will be tested to be accessible with all common current web browsers, non computer specific
- Establish at least one discussion forum (more possible if necessary)

## Website, structure (2)

- Suggestion:
  - General project information
  - Test site specific part (public or non-public??)
  - At least three separate public areas or modes of use tailored for each of the three dialogue audiences:
    - Society, Industry, Policy makers & regulators
  - Non-public project partner section
  - One or more discussion forum(s) moderated by WP leaders

## Website, content

- Numerous types of content
- Accessible by all envisaged users
- Accessible using basic computer equipment with standard operating systems and software
- Usual file formats should suffice
- Special attention to conformity, document content security and file size
- Suggestion:
  - Website working group to draft detailed specification of content type

## Website, management

### Suggestion:

- MIRO:
  - Day to day management, incl posting page updates and content
  - Maintenance of forum(s) and forum(s) structure changes
  - Technical support to WP leader if required (moderation of forum(s))
- WP leaders
  - Moderation and monitoring of forum(s)
- Decision making process of non day to day stuff
  - Task leader 5.2 -> WP5 leader -> Management Committee/General Assembly

 **Questions to be answered preferably  
in the kick-off meeting** 

- Who should be addressee of the general email address?  
Should there be any?
- Should there be project partner email accounts?
- Website working group agreed? Purpose and participants?
- Website partner/WP specific element requests for building into the design?
- Website management structure agreed?
- Define of and agree upon content workflow

## Website, discussion forum(s)

- A very raw state forum is already up and commissioned:  
[www.eo-miners-eu/forum.htm](http://www.eo-miners-eu/forum.htm)
- Theme and design will follow
- We will register moderators (Coordinator, WP leaders)
- Registering of all other users via web form:  
[www.eo-miners.eu/regform.htm](http://www.eo-miners.eu/regform.htm)
- All registered users will receive their access credentials
